Authorization and Revocation

- A photocopy of this authorization is as valid as the original.
- This authorization will be valid for 1 year from the date of signature, unless a date is specified. ______
- I may inspect or receive a copy of the information to be used or disclosed.
- I understand the information I authorize a person/entity to receive may be re-disclosed and no longer protected by federal/state privacy regulations.
- I understand this authorization is voluntary and I may refuse to sign. My refusal to sign will not affect my eligibility for benefits or enrollment, payment for or coverage of services, or ability to obtain treatment.
- I understand I may revoke this authorization at any time by contacting the Health Information Management Department in writing, except to the extent that a) records have been released or b) if this authorization is obtained as a condition of obtaining insurance coverage, other law provides the insurer with the right to contest a claim under the policy or the policy itself.
- Record fees may apply.

______ ______ ______

Patient/Legal Representative Signature Authority to Sign Date

Record Definition: The record(s) defined for release include record(s) part of Burnett Medical Center's designated record set. **Multiple Releases of Information:** A patient may request multiple releases of information stated on the Authorization form. However, all releases based on this form are limited to records dated up to and including the date of the patient's signature. A new Authorization is necessary for release of information for care provided after the date of the patient's signature, unless the Authorization specifically states that specific records generated in the future may be released, for example "future records of a specific test/visit". The patient/legal representative must contact us regarding these future releases. **NOTE:** To recipient of information: This information has been disclosed to you from records whose confidentiality is protected by state and federal law. Unless the records of your program are also subject to these laws, you may not make any further disclosure of this information without the specific written consent of the person to whom it pertains, or as otherwise permitted by such regulations. A general authorization for the release of medical or other information is not sufficient for this purpose. **HIV Test Results:** HIV test results may be disclosed without the test subject's permission in certain circumstances. A list of such circumstances is available to the test subject upon request to Burnett Medical Center.
